Logos and Log Forms

If you would like to include your company logo on your printed reports, e-mail samples to support@geosystemsoftware.com with "Logo for order" in the subject line. Preferred formats are .PNG, .JPG, or .BMP, although we can sometimes also work with .AI, .PDF, .DOC or .DOCX files providing they use standard typefaces. If you will be e-mailing a logo please check the box here:

HOLD PENDING RECEIPT OF LOGO FILE and see www.geosystemsoftware.com/support/gdm-logos.htm

New orders for LOGDRAFT 5 include one free boring log format designed to match your specifications. Please check the box below if you are licensing LOGDRAFT and would like to have us configure the program to produce a specific log form. Send samples to: support@geosystemsoftware.com with "Log for order" in the subject line.

HOLD PENDING RECEIPT OF LOG SAMPLE

Try Before You Buy:

Be confident in your purchase, take advantage of our fully operational demos. Licensed software cannot be returned for refund, so try before you buy. Check the box above to have demo software e-mailed.

License Fees:

GEOSYSTEM Software Suites		
Suite	License ¹	Upgrade ³
GEOSYSTEM Lab Suite: The Lab Suite combines the Moisture-density module with the Classification Suite. If you have a soils lab, you need the Lab Suite.	\$1500	\$700
GEOSYSTEM Classification Suite: This software package features the Grain size module teamed up with Atterberg limits to provide ASTM, AASHTO, and other soil and aggregate classifications.	\$975	\$475
GEOSYSTEM Enterprise Suite: This ultimate lab setup includes the LabSuite, Consolidation, Shear, CBR, R-Value & QC-Density	\$2600	
GEOSYSTEM Quality Control Suite: Manage all your concrete testing and earthwork compaction with these 2 QC databases. Easy to learn yet uniquely powerful for reporting inspection work.	\$1350	\$675

GEOSYSTEM Software Modules		
Module:	License ¹	Upgrade ³
Boring Log Drafting (LogDraft5) ²	\$1600	\$725
Grain Size Distribution	\$700	\$350
Moisture-Density	\$800	\$400
Consolidation	\$1050	\$600
California Bearing Ratio	\$650	\$425
Limerock Bearing Ratio	\$500	n/a
Resistance R-Value	\$600	\$100
Shear	\$925	\$575
Quality Control - Concrete	\$900	\$450
Quality Control - Density	\$725	n/c
Quality Control - Statistics	\$900	\$600

- Notes: 1) Educational institutions receive a discount of 20% on all programs.
 2) See the note on the previous page about your complimentary log design.
 3) Upgrades are from most recent previous version, upgrades from older version may be more.

Licensing Software:

When you install the software you will be asked to agree to the license agreement terms. Although the software does not have a hardware lock, by installing you are agreeing to abide by the License Terms (see below), and not distribute the software in any way contrary to the terms.

License Terms - single address site license:

1. The Licensee agrees not to sell, give away, install at branch offices, or otherwise distribute the program or the program documentation. Each program is licensed only for use at a single street address.
2. The Licensee agrees to not hold Von Gunten Engineering Software, Inc. (VES, Inc.) liable for any harm, damages claims, losses or expenses arising out of any act or occurrence related in any way to the use of the program.
3. The program is warranted to fully perform the tasks described in the program documentation. All results of the operation of the program are subject to the further engineering judgment, prudence, and study of the user.
4. If the program does not perform as described, VES, Inc. will replace the program with one that does at no charge during the first year after licensing. In no event will VES, Inc. be liable for any amount greater than the license fee paid by the licensee. Software usage is implicit agreement to these terms.
5. One year of free consultation and updates is included with the program. After that, updates are available for a fee, at the user's option.
